SUMMER SHOWS FOR YEAR 9s AND 10s

Brighton Dome Studio Theatre

Tues 21 June 2016,

10.30am–12.30pm & 1.30pm–3.30pm

Tickets: £7.50 +VAT – teachers are FREE.

The Brighton Dome Theatre, postcode BN1 1UE is a ten minute walk from Brighton station. Coaches can drop off near to the theatre.

Inspire your Year 9s and 10s – even the ones who don't love maths – with a lecture show featuring some of the country's most entertaining maths speakers.

Do your students wonder what's the point of algebra? Who on earth needs trigonometry? And who cares about exponentials?

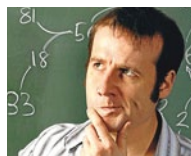

In this highly engaging and interactive show Matt Parker, Hannah Fry and Rob Eastaway (plus special guest), explain why there is actually a point to the maths your students have been studying this year. This is a maths show like your students have never seen before, with games, puzzles, surprises and a few laughs thrown in.

These shows are a joint venture between Maths Inspiration and The Further Maths Support Programme.

Matt Parker is known as the 'stand-up mathematician' and is the only person to hold the prestigious title of London Mathematical Society Popular Lecturer while simultaneously having a sold-out comedy show at the Edinburgh Festival Fringe. A regular on *Numberphile*, Matt is always keen to mix his two passions of mathematics and stand-up as well as presenting TV and radio shows.

Hannah Fry is a mathematician at University College London (or 'Mathmo at UCL' for short) as well as being an author and science presenter. You can find her on YouTube, TV and radio sharing her love of applied mathematics and exploring the patterns it reveals in our human behaviour.

Rob Eastaway is an author whose books on everyday maths include the bestselling *Why Do Buses Come In Threes?* and *The Hidden Maths of Sport*. He appears regularly on BBC Radio 4 and 5 Live to talk about the maths of everyday life and has given maths talks around the world to audiences of all ages.

GUEST SPEAKERS At each show, the second half will feature a guest speaker who has applied maths in an interesting way. To find out more, visit our website or join us on Twitter @mathsinspiratn for news and updates.

All prices include VAT (our VAT number is 547 9272 06). You can find out more details on our website www.mathsinspiration.com
