# what's the POINT?

SUMMER SHOWS FOR YEAR 9s AND 10s

## Leicester The Curve Studio Theatre

Mon 27 June 2016,  
10.30am–12.30pm & 1.30pm–3.30pm

**Tickets: £7.50 +VAT – teachers are FREE.**

The Curve Theatre, postcode LE1 1SB, is about five minutes walk from Leicester station. Coaches can drop off at the theatre and on-street parking is available at Phoenix Square and elsewhere.

Inspire your Year 9s and 10s – even the ones who don't love maths – with a lecture show featuring some of the country's most entertaining maths speakers.

**Do your students wonder what's the point of algebra? Who on earth needs Pythagoras? And who cares about exponentials?**

In this highly engaging and interactive show Matt Parker, Ben Sparks and Rob Eastaway (plus special guest, Lisa Collins) explain why there is actually a point to the maths your students have been studying this year. This is a maths show like your students have never seen before, with games, puzzles, surprises and a few laughs thrown in.

**These shows are a joint venture between Maths Inspiration and The Further Maths Support Programme.**

**Matt Parker** is known as the 'stand-up mathematician' and is the only person to hold the prestigious title of London Mathematical Society Popular Lecturer while simultaneously having a sold-out comedy show at the Edinburgh Festival Fringe. A regular on *Numberphile*, Matt is always keen to mix his two passions of mathematics and stand-up as well as presenting TV and radio shows.

**Ben Sparks** is a mathematician and busker who travels the country demonstrating the beauty of maths and occasionally singing about it. He's based at University of Bath and gets surprisingly passionate about imaginary numbers (look them up...).

**Rob Eastaway** is an author whose books on everyday maths include the bestselling *Why Do Buses Come In Threes?* and *The Hidden Maths of Sport*. He appears regularly on BBC Radio 4 and 5 Live to talk about the maths of everyday life and has given maths talks around the world to audiences of all ages.

**PLUS SPECIAL GUEST Lisa Collins** from Lincoln University, who has applied maths and statistics in her work studying animal and human behaviour.

All prices include VAT (our VAT number is 547 9272 06). You can find out more details on our website [www.mathsinspiration.com](http://www.mathsinspiration.com)

**Booking form: Leicester** 27 June 2016

Please complete and return this form to:  
**Maths Inspiration, 18 Colwell Road, London SE22 8QP**

### BOOKING

You can provisionally book seats by e-mailing [sarah@mathsinspiration.com](mailto:sarah@mathsinspiration.com) or by telephoning Sarah Cooper on 01483 527712 with your name, school, the event, time of show and the number of seats you would like. We only accept bookings from schools or colleges.

To confirm your booking, you need to send your booking form and cheque to us within three weeks of the date that you receive confirmation of your provisional booking. You may also pay by BACS (we can send you a VAT invoice). For full terms and conditions and details of all talks and venues visit our website.
