Book at www.MathsInspiration.com

National Sponsor:  Admiral

Inspire your sixth formers

with these interactive maths lecture shows

Maths Inspiration is a national programme of interactive maths lecture shows for teenagers. We give 14–17 year olds a chance to experience the UK's most inspiring maths speakers live in theatres, presenting mathematics in the context of exciting, real-world applications.

All shows have three interactive talks, an interval and a lively Q & A session at the end. The shows make links to National Curriculum content, and feature mathematicians, engineers and statisticians. They are an ideal STEM outing for your school that can also open your students' eyes to mathematical careers.

WHO SHOULD I BRING TO THE SHOW?

This show is aimed at all Year 12s and FE students who are studying maths, including Core Maths, and at Year 11s who have the potential to get Grade 6 or higher at GCSE. Year 13s and your top set Year 10s will also enjoy the content, though they are not the target audience.

What teachers say about our shows:

"Fabulous – it was enjoyed by all our students and by the teachers."

"It was brilliant. The maths was very relevant and pitched perfectly."

"Thoroughly enjoyable – loved the variety of topics and the intro music!"

"The interactive element kept students very engaged!"
